

DiagramEditor::Diagram
::Diagram::mouseMoveEvent

DiagramEditor::Diagram
::Diagram::mousePressEvent

DiagramEditor::Diagram
::Diagram::diagramItemAt

```
graph LR; A[DiagramEditor::Diagram::mouseMoveEvent] --> C[DiagramEditor::Diagram::diagramItemAt]; B[DiagramEditor::Diagram::mousePressEvent] --> C;
```

The diagram illustrates a mapping from two source methods to a single target method. On the left, two white rectangular boxes with black borders contain the text 'DiagramEditor::Diagram::mouseMoveEvent' and 'DiagramEditor::Diagram::mousePressEvent' respectively. On the right, a gray rectangular box with a black border contains the text 'DiagramEditor::Diagram::diagramItemAt'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating a relationship or mapping between the source methods and the target method.
