

ConnectionSpecifications
::applyFormResults

ElementSpecifications
::applyFormResults

SpecificationsGroup
::applyFormResults

```
graph LR; A[ConnectionSpecifications  
::applyFormResults] --> C[SpecificationsGroup  
::applyFormResults]; B[ElementSpecifications  
::applyFormResults] --> C;
```

The diagram illustrates a relationship where two separate specification objects, 'ConnectionSpecifications' and 'ElementSpecifications', both utilize the 'applyFormResults' method to interact with a 'SpecificationsGroup' object. The 'SpecificationsGroup' box is shaded gray, indicating it is the target or a central component in this context.
